

**REMARKS**

Claims 43 through 63 are pending. Claims 43, 52, 55 and 63 are being amended. The amendments are being made for clarity and not patentability purposes, and no new matter is being added.

Claims 43-47 and 52 are currently rejected under 35 USC § 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Applicants are traversing this rejection by providing antecedent basis for "the at least one measurement" in Claim 43 and providing correct dependency of Claim 49 for Claim 52.

Claim 43 is currently rejected under 35 USC § 112, second paragraph, as being incomplete for omitting essential elements. Applicants are traversing this rejection by clarifying the "receive unit including a measurement unit", as claimed in Claim 43.

Claims 55 and 56 are currently objected to under 37 CFR 1.75(c) as being in improper form because of a multiple dependent Claim. Applicants are traversing this rejection by amending Claim 55 to be dependent upon Claim 54. Basis for the amendment to Claim 55 can be found in Claim 13 as originally filed.

The case is believed to be in condition for allowance and notice to such effect is respectfully requested. If there is any issue that may be resolved, the Examiner is respectfully requested to telephone the undersigned.

If Applicant has overlooked any additional fees, or if any overpayment has been made, the Commissioner is hereby authorized to credit or debit Deposit Account 503079, Freescale Semiconductor, Inc.

Respectfully submitted,
